

## FROM JANUARY 2019 VALUATION CASES IN M&A

### Course Description

Corporate Valuation Cases is a one-semester course which primary objective is to give students useful insights into the practicalities of investment banking profession. The course will further strengthen financial evaluation skills obtained by student in the previous courses and will focus on practical aspects of valuation models applied to various industries and transaction types.

### Four great modules in one course:

1. Introduction to profession
2. Accounting module
3. Valuation module, e.g.: Retail FMCG, Real Estate, Oil & gas and Energy
4. Deal making (public markets and regulations, contracts, due diligence etc.)
